

M600/EXP

A personalized experience tailored for you.

Piper[®]

M600/EXP

Piper Aircraft knows how personal an aircraft purchase can be to the owner; with this in mind we are taking it one-step further through personalization. We make you, the owner, a key part of our design group as we plan the build of your interior and the design of the exterior.

This unique experience will enable you to add personal touches to both the interior and exterior making the aircraft truly "tailored for you".

The M600 / EXP (Expression) package is exclusively available to M600 customers and includes a face to face meeting with our design consultant in Vero Beach, Florida during which you will select your interior color palette from our available options. Once your color palette has been selected we will work with you to identify thread colors, stitching patterns, headliner bezel accent color, as well as your personal brand design and placement enabling you to be an integral part of the design process as you create your dream aircraft.

LEATHER APPOINTMENTS

We offer four executive interior options that feature exquisite leather hand selected by our skilled artisans. This package includes leather wrapped yokes and a leather wrapped cockpit handle with color-coordination thread.

STITCHING

A variety of options for stitching throughout your cabin – on seats, handles, and yoke is available. The design consultant will work with you in selecting the stitching color as well as a customized pattern for the seats.

BRAND / LOGO DEFINITION

We have the ability to place your company logo, a monogram or family crest that can be embroidered or debossed on the seats, table panel, as well as the door threshold panel.

THROTTLE & THRESHOLD PLATE

Customizable name plates with areas for personalization are thoughtfully placed just above the throttle and at the door threshold. The custom printed plates can include your name, logo as well as the aircraft serial number.

HEADLINER BEZEL

Wrapped center headliner bezel is available in a custom leather color that accents your interior color palette or in carbon fiber (Firenze interior only).

CUSTOM PAINT SCHEMES

Four dynamic paint schemes have been designed exclusively for the EXP package. You will have the ability to hand select a scheme from our seemingly endless Axalta paint color choices.

M600/EXP

Piper is proud to partner with TUMI® luggage to offer our customers a high-end product. With the purchase of the M600 / EXP package, you will receive two personalized TUMI pieces, (one carry-on and one short trip) that are the perfect compliment to your new aircraft.

Equally striking from a distance or at close range, the lightweight yet durable case boasts a modern silhouette with fluid, angled lines, enriched by an exclusive Japanese film that fortifies the case while enhancing its naturally reflective properties and metallic appearance. Perfectly sized for quick trips and long weekends.
